Profile Summary

A Enthusiastic Computer Engineering diploma holder with a strong foundation in programming, software development, and systems analysis. Recently pursuing a comprehensive post-SSC diploma in Computer Engineering, equipped with hands-on experience in various programming languages including C++, Java, and Python. Demonstrated ability to develop and troubleshoot software applications through academic projects and internships. Adept at collaborating in team environments and committed to leveraging technical skills and problem-solving abilities to contribute effectively to dynamic technology projects. Seeking an opportunity to apply my knowledge and passion for technology in a challenging and growth-oriented role.

Academic Projects

- Developed a Console based **Hospital Billing System** using **core C Programming**. It operates via a command-line interface, allowing users to interact with the system through text-based inputs and outputs, ensuring efficient and straightforward billing management.
- Developed a Console based **Pharmacy Store Billing System** using **core C++ Programming**. It operates via a command-line interface, allowing users to interact with the system through text-based inputs and outputs. It applies OOP features of C++.
- Developed a Console based **Banking System** using **core JAVA Programming**. It allows user to create Accounts via command-line interface, and perform various activities such as Deposit, Withdrawal and Money transfer within the Accounts created through command-line interface.
- Developed and deployed a **Clone website** of the **MSBTE** (Maharashtra State Board of Technical Education) **result portal** using **HTML** and **CSS**. This project involved designing a web interface that replicates the layout and functionality of the original MSBTE result site. The deployment ensured the site was accessible online, providing a similar user experience to the official portal.

Academic Achievements

- Secured **75%** in **C** test organized by the **Spoken Tutorial Project, IIT Bombay**.
- Secured **65%** in **C++** test organized by the **Spoken Tutorial Project, IIT Bombay**.
- Secured **85%** in **Java** test organized by the **Spoken Tutorial Project, IIT Bombay**.
- Successfully completed the **"Introduction to JavaScript"** course provided by **Great Learning Academy**.
- Successfully completed the **"Introduction to Python"** course provided by **Sololearn**.

Experience

SuperSapiens Devlab Private Limited. Data Analyst

- Implemented Data Analysis through creating Microsoft Power BI Dashboards.
- Collaborated with teams to create dynamic Dashboards.
- Utilized Microsoft Power BI and Figma design tool to perform Data analysis.
- Participated in team discussions showcasing communication skills.
- Led Presentations, showcasing strong leadership.

Personal Details

Date of Birth: 2nd December 2006

Languages Known: English, Hindi and Marathi

Address: Pune, Maharashtra
